EXCELLENT KAYODE-FOLORUNSHO

MS Engineering Artificial Intelligence Student | Building AI/ML and LLM Applications

Kigali, Rwanda • +2348110466046 • excellentfolorunsho@gmail.com • linkedin.com/in/xcllntt •excellentfolorunsho.cv

EDUCATION

- ***Carnegie Mellon University***| MS, Engineering Artificial Intelligence (Expected 2028)
  Relevant coursework: AI for Engineers • Data, Inference & Applied Machine Learning • Mathematical Foundations for Machine Learning
- ***Lagos Business School, Pan-Atlantic University*** | Venture in Management Programme (ViMP), Mini-MBA
- ***Federal University of Technology, Akure*** | B.Eng, Electrical and Electronics Engineering.

TECHNICAL SKILLS

- **AI/ML:** LLM application development (Gemini API, Hugging Face models), multi-model pipelines, prompt engineering, data preprocessing
- **Programming:** Python, SQL, data analysis
- **Tools:** Claude Code, Cursor, Google Colab, Power BI, Google Analytics, Mixpanel, Jira, Confluence
- **Product:** User research, product strategy, experimentation, product analytics

AI/ML PROJECTS/RESEARCH

- **Farm Yield Optimization** (**Research**) - Led a team building an ML model that predicts optimal fertilizer, pesticide, and irrigation inputs for farmers in Rwanda; sourced and normalized the training dataset, directed API integration, and led product design.
- **Procon** - Built an AI decision-support tool on the Gemini API that helps people think through choices they are stuck on.
- **Mood2Food** - Built an AI platform that combines multiple Hugging Face models in one pipeline to recommend what and where to eat based on mood and context.
- **ToTheFuture** - Built a web app where you record a video or write a letter to your future self, then have it delivered to your inbox on a date you choose.

PROFESSIONAL EXPERIENCE

VFD Group | Product Manager, Bvndle (**Product Studio**) — 2025 to 2026

- Launched the Bvndle Card payment product from ideation to rollout, growing card transactions by 5000% in 3 months.
- Led the end-to-end rebuild of Bvndle 3.0 into a higher-engagement loyalty platform for VFD's financial services ecosystem.
- Drove integrations with MTN, UBA, Filmhouse Cinemas, and Access Bank to unlock stronger redemption options.

Movam | Product Manager — 2023 to 2025

- Led the launch of Movam 2.0, an end-to-end goods-in-transit management solution for logistics businesses, driving a 40% increase in adoption within 6 months and contributing to $305K+ in ARR.
- Designed and ran customer research and usability testing, improving onboarding completion rates by 30%
- Introduced scalable product education tools, including a knowledge base and demo videos, driving a 40% increase in engagement, and presented product demos and roadmap updates to senior stakeholders and investors.

LEADERSHIP AND ENTREPRENEURSHIP

TFS Media | Founder and Director, Product and Community Strategy — 2021 to 2024

- Built and scaled TFS, a digital student platform, from zero to 30,000+ students across 28+ Nigerian universities.

AIESEC | VP, Akure Chapter and National Roles (**Nigeria, US**) **— 2021 to 2023**

- As VP, led a cross-functional team of 12 to scale two chapter products, reducing drop-offs by 30% through user journey optimization.

Public Writing | Medium (**medium.com/@xcllntt**) **and Substack** (**thisisexcellent.substack.com**) — Ongoing

- Essays on AI, product sense, product-led growth, tacit knowledge, and decision-making, including the series "Why Don't We Have This Yet?"

SKILLS AND CERTIFICATIONS

Certifications: Product School micro-certifications in AI, Experimentation, Analytics, PLG, Strategy, and Roadmapping (2024 to 2025) • Agile Product Management, Google, 2024 • McKinsey Forward Program, 2024 • Digital Product Management, University of Virginia, 2023
Languages: English, French, Yoruba
Awards: Most Entrepreneurial Graduating Student; Most Innovative AIESECer
